ABSTRACT

The data result from a survey of Opening Fall Enrollment in Higher Education, 1975. The five tabulations list enrollment data by sex of student, full- or part-time attendance status, and level of study for each of 3055 institutional units, with state subtotals. Total enrollment in institutions of higher education increased by almost a million, to 11,290,719, in fall 1975 from the total reported a year earlier. These data are for students taking work creditable toward bachelor's or higher degrees or toward formal awards below the baccalaureate at institutions in the United States and its outlying areas. As for several years, enrollments in public institutions gained more than in private institutions both in number and rate of increase; in two-year institutions, both public and private, much more than in four-year institutions. Part-time enrollments continued to increase at a faster rate than did full-time enrollments; but after years of slower gains for men than for women, in fall 1975 the enrollment of men almost matched the rate of gain for women, lacking only a very small fraction of a percent. FOREWORD

This publication is one of two resulting from the survey of Opening Fall Enrollment in Higher Education, 1975. The five tabulations that constitute this report list enrollment data by sex of student, full- or part-time attendance status, and level of study for each institutional unit, with State subtotals. The other report from this survey, being prepared for publication, provides summaries and primary analyses of the institutional data by control and level of institution and by State.

Although the 1975 survey of fall enrollment was the 30th consecutive annual survey since 1946, the specific data items included in the survey have been modified from time to time in order to reflect the evolving nature of programs offered by institutions of higher education as well as to meet the need for enrollment data for planning and policymaking at the institutional, State, and Federal levels.

Persons interested in the complete data file may obtain a computer tape (costing $94 or $120, depending on density) by writing or calling:

ACKNOWLEDGMENTS

Reports based on various parts of the Higher Education General Information Survey are made possible by the cooperative endeavors of a number of individuals in the National Center for Education Statistics. The author is particularly indebted to three staff members of the Higher Education Surveys Branch--Ellory C. Pollock, Nadine S. Rousselle, and Rita D. Arroyo--whose patience, enthusiasm, and diligence contributed greatly to the successful completion of the survey and, consequently, to the reports that ensue from the data obtained. Their efforts in the collection, editing, processing, and followup stages of the survey (and the myriad problems endemic to a project of this nature) greatly eased the burdens of the survey director in the conduct of this survey. Their participation in the survey not only was keenly appreciated but also was absolutely necessary.

INTRODUCTION

Total enrollment in institutions of higher education increased by almost a million, to 11,290,719, in fall 1975 from the total reported a year earlier. These data are for students taking work creditable toward bachelor's or higher degrees or toward formal awards below the baccalaureate at institutions of higher education in the United States and its outlying areas.

As for several years, enrollments in public institutions gained more than in private institutions both in number and rate of increase; in 2-year institutions, both public and private, much more than in 4-year institutions. Part-time enrollments continued to increase at a faster rate than did full-time enrollments; but, after years of slower gains for men than for women, in fall 1975 the enrollment of men almost matched, lacking only a very small fraction of a percent, the rate of gain for women.

The various elements of enrollment listed above are aggregated in various ways and analyzed in greater detail in the companion report Fall Enrollment in Higher Education, 1975--Summary Report, now being prepared. This "institutional" report is limited to the presentation of listings by institution, with State subtotals, of enrollment data concerning the sex, attendance status, and level of students in 3,055 institutional units (institutions of higher education and their separately certified branches).

The fall 1975 enrollment survey added questions on credit hours to the survey questionnaire used previously. Unfortunately, because of the multiplicity and complexity of college calendar and credit-granting systems and other problems, many institutions experienced difficulty in responding meaningfully to those questions. Therefore, these data were discarded as incomplete and statistically unreliable and do not appear in either of the fall 1975 enrollment reports.

SURVEY BACKGROUND

The Education Directory, 1975-76, Colleges and Universities (NCES 76-130) was the source for the list of institutions included in the survey on which this report is based.

Institutions of higher education included in this report are classified as either 2-year or 4-year institutions, with universities as a separate subclassification of the latter. The 4-year institutions are those that offer programs extending at least 4 years beyond high school. They comprise all institutions that grant bachelor's or higher degrees or some recognition equivalent to such degrees; e.g., ecclesiastical recognition in theological institutions. They may also offer organized occupational programs of less than 4 years that result in an associate degree or some other recognition of completion such as a certificate or diploma. Universities are those institutions that place considerable emphasis on graduate instruction and have at least two professional schools that are not exclusively technological.

The numbers of institutions in the fall 1975 survey and, for comparison, in the 1974 survey were as follows:

	1975			1974		
Level of institution	Total	Public	Private	Total	Public	Private
All institutions	2,782	1,227	1,555	2,763	1,222	1,541
4-year institutions	1,779	452	1,327	1,756	452	1,304
Universities	159	94	65	159	94	65
Other 4-year	1,620	358	1,262	1,597	358	1,239
2-year institutions	1,003	775	228	1,007	770	237

The number of institutional units (institutions and separately certified branches) in the fall 1975 survey and, for comparison, in the 1974 survey were as follows:

	1975			1974		
Level of institution	Total	Public	Private	Total	Public	Private
All institutions	3,055	1,454	1,601	3,038	1,453	1,585
Universities	161	96	65	161	96	65
Other 4-year	1,651	365	1,286	1,626	364	1,262
2-year	1,056	826	230	1,058	818	240

2-year branch of univ.	67	67	-	75	75	-
2-year branch of other 4-year institution	18	8	10	16	8	8

For the convenience of the reader, the questionnaire, instructions, and definitions used in the survey are reproduced in appendix B of this report. Complete data were received for all 2,782 institutions (3,055 institutional units) in the survey, and total enrollment figures for the aggregate United States (50 States, District of Columbia, and U.S. outlying areas) have been entered in each cell of the questionnaire.

Questionnaire Editing

Each report form filed in this survey was compared with the report form filed by each institution for the comparable 1974 survey. Large differences in enrollment patterns were accepted if reasons for them were readily apparent. If further information was needed, institutions were contacted by letter and/or telephone for verification, revision, or additions to the figures reported. These procedures undoubtedly eliminated the larger reporting errors, but the extent to which small, unrecognized errors may remain is unknown.

For the convenience of the reader as well as for ease in statistical tabulation, totals have not been rounded but are given as they were obtained--by simple addition of the figures for individual institutions. This does not imply that totals and subtotals are accurate to the last digit. It was believed, however, that the data could be more conveniently used if the many subtotals obtained in the analysis were reported in such a way that they would add exactly to the totals. Also, in view of the care with which the data were compiled by respondents and reviewed by the National Center for Education Statistics, it seemed appropriate that the totals reflect the individual reports.

DEFINITIONS

MULTI-CAMPUS INSTITUTION. An organization bearing a resemblance to an institutional system, but unequivocally designated as a single institution with either of two organizational structures: (1) an institution having two or more campuses responsible to a central administration (which central administration may or may not be located on one of the administratively equal campuses) or (2) an institution having a main campus with one or more branch campuses attached to it.

MAIN CAMPUS. In those institutions comprised of a main campus and one or more branch campuses, the main campus (sometimes called the parent institution) is usually the location of the core, primary, or most comprehensive program. Unless the institution-wide or central administrative office for such institutions is reported to be at a different location, the main campus is also the location of the central administrative office.

BRANCH CAMPUS. A campus of an institution of higher education which is organized on a relatively permanent basis (i.e., has a relatively permanent administration), which offers an organized program or programs of work of at least 2 years (as opposed to courses), and which is located in a community different from that in which its parent institution is located. To be considered in a community different from that of the parent institution, a branch shall be located beyond a reasonable commuting distance from the main campus of the parent institution.

INSTITUTIONAL SYSTEM. A complex of two or more institutions of higher education, each separately organized or independently complete, under the control or supervision of a single administrative body.

cation.

PLEASE READ THE FOLLOWING INSTRUCTIONS AND DEFINITIONS BEFORE COMPLETING THIS FORM. DETACH THIS PORTION AND RETURN THE COMPLETED FORM TO THE DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, EDUCATION DIVISION, NATIONAL CENTER FOR EDUCATION STATISTICS, ATTN: ROOM 2164-HEGIS, 400 MARYLAND AVENUE, SW., WASHINGTON, D.C. 20202 OR YOUR HEGIS COORDINATOR.

DEFINITIONS

FIRST-TIME STUDENTS. Entering freshmen who have not previously attended ANY college. Include students enrolled in the fall term who attended college for the first-time in the summer of 1975. Also include students who entered with advanced standing *(college credits earned before graduation from high school).*

BACHELOR'S-DEGREE-CREDIT PROGRAMS. Any work creditable toward a bachelor's degree. In 2-year institutions, those programs from which the credits earned are transferable to a bachelor's degree program.

VOCATIONAL-TECHNICAL PROGRAMS. Organized occupational curriculums of less than four years, primarily in the vocational and technical fields, not chiefly creditable toward a bachelor's degree. Normally terminal and result in formal recognition such as a certificate or diploma.

LOWER DIVISION. In 4-year institutions, includes freshmen and sophomores in bachelor's degree programs. In 2-year institutions, includes students in associate degree programs. Also includes, in all levels of institutions, students in terminal-occupational programs of one, two, or three years that result in formal recognition below the baccalaureate.

UPPER DIVISION. Students who have completed the sophomore year and typically are enrolled in a 4- or 5-year bachelor's degree program. *(Students in professional programs of 6 or more years should generally be included on line 08).*

UNCLASSIFIED STUDENTS. Not candidates for a degree or other formal award, although taking courses in regular classes with other students. This category includes students who cannot be classified by academic level as well as students who already have degrees but who are taking additional courses at the same degree level or lower; this also applies to students with degrees below the baccalaureate at 2-year institutions.

FIRST-PROFESSIONAL STUDENTS. Students enrolled in a professional school or program which required at least 2 academic years of college work for entrance and a total of at least 6 years for a degree. Report only students in those first-professional degree programs in the field of medicine, law, and theology specified in Part A of OE Form 2300-2.1, Degrees and Other Formal Awards Conferred. Students in programs requiring only 4 or 5 years beyond high school should be reported as undergraduates.

GRADUATE STUDENTS. Students who hold the bachelor's or first-professional degree, or equivalent, and are taking work at the graduate level which is creditable toward a master's or doctor's degree.

FULL-TIME STUDENTS. Those whose academic load-coursework or other required activity-is at least 75% of the normal full-time load.

NORMAL FULL-TIME LOAD. Usually determined by dividing the total number of credits required for completing the program by the number of terms normally required to obtain them.

FULL-TIME-EQUIVALENT (FTE) ENROLLMENT OF PART-TIME STUDENTS. Convert part-time students into full-time equivalents by one of the following:

(1). Use a method already employed in your institution to compute FTE's for some other purpose.

(2). Sum the credit hours for part-time students and divide by the NORMAL FULL-TIME CREDIT-HOUR LOAD. Note: Divide by the NORMAL, OR AVERAGE, full-time load, not by the MINIMUM full-time load. For most institutions, this will be 15 credit-hours (not 12).

(3). Assign a fractional value of full-time to each part-time student, appropriate to your institution, such as 1/4, 1/3, or 1/2. Remember that a student taking 3/4 (75%) or more of a normal full-time load should be classified as a full-time student.

NORMAL FULL-TIME CREDIT-HOUR LOAD (column 7). Usually determined by dividing the total number of credits required for completing the program by the number of terms normally required to obtain them. Do not confuse this with the MINIMUM number of credit-hours required for a student to be classified full-time (75% of a normal full-time load).

TOTAL CREDITS ENROLLED FOR (column 8). For each line on the form, the total number of credit-hours accounted for by the total (headcount) number of students reported in column 5. This count should be determined by the level of the student, NOT by the level of the course he is taking.

NOTE: No matter what the calendar system, report on this questionnaire only those students enrolled and only those credit-hours being earned during the FALL TERM.

INSTRUCTIONS

NOTE: Listing of data for individual institutions are regularly included in published reports of this survey

Proofread the completed report before returning it to National Center for Education Statistics.

This report should include only college-level students taking work creditable toward a bachelor's or higher degree or some other formal recognition below the baccalaureate.

If you need clarification of any item on the questionnaire, please call the Survey Director, Mr. George H. Wade, NCES, (202) 245-8392, in Washington, D.C.

If exact counts are lacking for a particular category of students that should be reported, include an estimate for that group.

Do NOT fill out separate forms for extension centers. Only campuses with their own FICE code numbers should be reported on separate questionnaires. Extension students should be reported on the form for the main campus.

COMPLETE THIS FORM as soon as detailed enrollment breakdowns are available, but no later than October 15, 1975.

Do NOT include in this report:

(a) Students in noncredit adult education courses.

(b) Students taking courses at home by mail, radio, or television.

(c) Students enrolled only for "short courses."

(d) Auditors.

(e) Students studying abroad if their enrollment at the reporting institution is only an administrative record and the fee is only nominal.

(f) Students in any branch campus or extension center in a foreign country.

(g) High school students taking college courses.

(h) Students known to be enrolled concurrently at another college or university, if the latter will report their enrollment (to avoid double-counting). Normally, the institution that will eventually grant the degree should report the student's enrollment.
